Lively, joyful melodies of Kujawiak and Mazurek and happy folk chants put everybody in spring mood.

The school management invited the Folklore Band from Łódź. They showed us different, regional folk dances and were dressed in coloured folk costumes.

In 14th of March 2016 our head master went to Turkey in order to participate the Erasmus Working Meeting. They were taking about the next project tasks and monitoring of each project stage. They also presented products, methods and forms of work with pupils during the project realization.

Pupils from Va and Vb took part in recording of folk chants in the professional studio at Piłsudskiego Street. Three chants were recorded: "Kukułeczka", "Wele Wetka", "To i hola".

The best projects of CD cover were shown at the school blackboard.

Lapbooks is a brilliant way of learning. They were made by pupils from IV a and impressed with variety and creativity of children and parents. These personally prepared theme books developed knowledge about folk customs, ceremonies, ways of spending time in old village. It was a great opportunity for small explorers to repeat "folk knowledge" of the whole school year.
