

HOW TO MAKE ORNAMENTS AND AMULETS WITH FELT AND BLUE EVIL EYE BEADS

MATERIALS:

Different colours of felt

Glass blue evil eye beads

Scissors, cardboard , paperboard or paper

Yarn or thread

Fiber

Darning needle or sewing needle

Ribbons, buttons, beads , anything else you would like to use

Now , let's start.

First we need some templates ,like these:

Heart template, flower template,butterfly template,fish template circle, square, rectangular templates, etc.

We start cutting our chosen template .We chose our heart template.

We draw it and cut it.Here it is ready.

Now ,we put it on the felt.We have a heart template.So,we would like to use the red felt . / We have a fish template , so we would like to use the blue felt.

Then,we draw our template onto our chosen color of felt.

Next, we cut our pattern out .We need two cut -outs per ornament.

Now, we sew our two cut-outs together.We try to sew them in a more traditional method as shown here.

We should be sure to leave some section un-sewn in order to fill in the ornament with fiber.Then we sew the rest section.

After that we add our embellishment by sewing them to our pattern.We have the glass blue evil beads to add .Let's have a tight knot onto the rope.

Finally , our amulet is ready.We hope you all love it.

Thanks for your watching us.
